

REMARKS

In a Requirement for Restriction issued on October 9, 2007, the Examiner restricted the examination of claims 1-19 in this application. Specifically, the Examiner required the Applicants to elect between the following inventions:

- Invention I, claims 1-8, which are drawn to an electronic control module, classified in class 436, subclass 147+, and
- Invention II, claims 8-19 which are drawn to a vehicle control system, classified in class 436, subclass 367+.

Although the Applicants do not concede the correctness of the requirement to restrict, the Applicants elect to prosecute the claims of Invention I (claims 1-8). Therefore, the Applicants have cancelled claims 9-19 without traverse and without prejudice to the Applicants' right to include those claims in a divisional application.

If the Examiner believes that a telephonic interview will help speed this application towards issuance, the Examiner is invited to contact the undersigned at the telephone number listed below.

Respectfully submitted,

Date: November 9, 2007
